

Giggle and Grow
Childcare & Preschool

Cuddle Bug Room: 6 weeks-12 months

Infant Program

Our infant program ensures that babies receive the personal one on one attention that they need to develop trust for the world around them. Infants are held, cuddled, talked to and sang to throughout the day. We work closely with parents to develop each infants daily schedule. Flexibility with infants is key and our staff understands and appreciates this fact. Parents are kept informed of their child's activities through a daily sheet that shows meal and nap times, activities and their child's likes and dislikes.

Giggle and Grow
Childcare & Preschool

Dragonfly Room: 12 months-24 months

Young Toddler Program

When children begin walking alone they graduate to our Caterpillar Room. At this age, children develop a greater independence, but still have a strong need for one on one affection and attention.

Toddlers are encouraged to explore and discover new things with guidance and encouragement from our teachers. At this age a more structured schedule is also introduced. This helps children feel more secure by providing them with a sense of expectation of things to come. Our Caterpillar room is equipped with the latest in age appropriate toys and activity centers so each child is fully engaged and enjoying each day.

Grasshopper Room: Pre-K

Pre-k Program

Our Pre-K program helps children develop the skills necessary to ensure a successful beginning to their school career. Each child is a unique learner and at Giggle and Grow, individual attention is top priority. We keep our group sizes small so that the children are able to work with their teacher to reach their full potential.

Children work on reading and writing skills, math readiness, science discovery projects, social studies and music appreciation.

With the assistance of each family, assessments are conducted throughout the year to ensure that all children are on the path to success.
